

Mastering Lesson Planning with ChatGPT

★ Think of AI in your work... Do you use it? How? If not, why?

🚀 Part 1: Planning a Complete Lesson Using ChatGPT

- Why?**
- Save significant time by automating repetitive planning tasks.
 - Generate creative teaching ideas and activities you might not have thought of before.

How to create an effective prompt #1

"You are a Spanish teacher. Help me create a 45-minute lesson plan for a high school Spanish class on the topic of 'Reflexive Verbs in Daily Routines.' Include a warm-up activity, a main teaching segment, a practice task, and a closing reflection."

Here is a place to think of your own prompt you might need to use in your future lesson planning. You can either complete the pattern or invent your own from scratch.

"You are a _____ teacher. Help me create a ____-minute lesson plan for a _____ school _____ class on the topic of '_____.' Include a warm-up activity, a main teaching segment, a practice task, and a closing reflection."

Part 2: Making Difficult Topics Engaging

Why use ChatGPT for the challenging topics?

- It offers fresh ideas and brings a new perspective.
- It suggests innovative examples, games or experiments.

How to create an effective prompt #2

"You are a Biology teacher. Help me design a fun and engaging classroom activity for teaching high school students the principles of photosynthesis. Create an interactive game that illustrates key concepts, encourages student participation and will take no more than 10 minutes."

Here is a place to think of your own prompt you might need to use in the future in the future when you're struggling with a topic you're not comfortable with. . You can either complete the pattern or invent your own from scratch.

"You are a _____ teacher. Help me design a fun and engaging classroom activity for teaching _____ school students the topic of ' _____.' Create an interactive game/practical example/hands-on experiment that illustrates key concepts, encourages student participation and will take no more than 10 minutes."

Part 3: Reflection

What worked well for you?
